St. Mark's Hospital	595	8.6%	7.8%	* *
Timpanogos Regional Hospital	94	8.5%	7.5%	* *
University Health Care	548	5.5%	4.8%	* *
Utah Valley Regional Medical Center	550	6.7%	5.5%	* *

All Utah hospitals had about as many deaths as expected compared to similar patients in the U.S.

The following hospitals treated at least one patient but less than 30 patients:

Allen Memorial Hospital, Alta View Hospital, American Fork Hospital, Ashley Regional Medical Center, Bear River Valley Hospital, Beaver Valley Hospital, Brigham City Community Hospital, Castleview Hospital, Central Valley Hospital, Delta Community Hospital, Fillmore Community Hospital, Garfield Memorial Hospital, Gunnison Valley Hospital, Heber Valley Hospital, Kane County Hospital, Mountain West Hospital, San Juan Hospital, Sanpete Valley Hospital, Sevier Valley Hospital, Uintah Basin Medical Center and Valley View Medical Center.

Statistical Rating: based on the Exact 95% Confidence Interval test of statistical significance, except hospitals with no deaths from 2004 through 2006 have three stars.

* * *	Fewer deaths than expected (better)	* *	Same as expected	*	More deaths than expected

[Click here to read Data Limitations.](#)

Actual deaths: percentage of patients who received care for this condition or procedure and died in this hospital.

Expected deaths: percentage of patients who were expected to die at this hospital if it performed the same as other U.S. hospitals that treated similar patients (age, gender, how ill the patients were).
